ENR 2016-Top 250 International Contractors

The uncertainties in the international construction markets can be seen in the results of the ENR Top 250 International Contractors list. The ENR Top 250 International Contractors had \$501.14 billion in contracting revenue in 2015 from projects outside their home countries, down 4.1% from \$521.55 billion in 2014. The Top 250, as a group, also had \$897.33 billion in revenue from domestic projects in 2015, down 1.3% from \$909.26 billion in 2014.

Companies are ranked according to construction revenue generated outside of each company's home country in 2015 in U.S. \$ millions. Firms not ranked last year are designated **. Some markets may not add up to 100% due to omission of "other" miscellaneous market category and rounding. NA=Not available. †=Includes revenue of subsidiaries, the names of which now are available through www.ENR.com.

The table below shows only rankings and firm name. For complete the data list see the following links.
